-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### **DETAILED ACTION**

1. This office action is in response to the application filed on November 17, 2003.

Claims 1-155 are pending.

#### ***Election/Restrictions***

2. Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-34, drawn to determine continued compliance of an online entity, classified in class 707, subclass 200.
- II. Claims 35-47, drawn to update datastore of attributes, classified in class 717, subclass 168.
- III. Claims 48-54, drawn to generate object based on monitored status, classified in class 710, subclass 18.
- IV. Claims 55-87, drawn to online marketplace to a selling practice, classified in class 705, subclass 37.
- V. Claims 88-95, drawn to retrieve object based on a unique identity, classified in class 902, subclass 4.
- VI. Claims 96-110, drawn to prioritization process, classified in class 718, subclass 103.
- VII. Claims 111-118, drawn to determine compliance with requirements for seal certification, classified in class 713, subclass 175.
- VIII. Claims 119-133, drawn to present one of the plurality sectors to a user, classified in class 705, subclass 26.

Art Unit: 3621

IX. Claims 134-143, drawn to send a notification to a seller, classified in class 719, subclass 318.

X. Claims 144-155, drawn to third party transaction protection, classified in class 713, subclass 155.

3. The inventions are distinct, each from the other because of the following reasons:

Inventions I through X are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility such as determining continued compliance of an online entity. Invention II has separate utility such as updating datastore of attributes. Invention III has separate utility such as generating object based on monitored status. Invention IV has separate utility such as online marketplace to a selling practice. Invention V has separate utility such as retrieving object based on a unique identity. Invention VI has separate utility such as prioritization process. Invention VII has separate utility such as determining compliance with requirements for seal certification. Invention VIII has separate utility such as presenting one of the plurality sectors to a user. Invention IX has separate utility such as sending a notification to a seller. Invention X has separate utility such as third party transaction protection. See MPEP § 806.05(d).

4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Art Unit: 3621

5. Applicant is advised that the reply to this requirement to be complete **must include an election of the invention to be examined** even though the requirement be traversed (37 CFR 1.143).
6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
